

# Fox Hollies News

## Spring/Summer 2022

We hope that this will show you some of the amazing things our young people did last term. As you can see, learning is a lot of fun!

### World Book Day

This year each pathway focussed on a different Julia Donaldson book, doing activities relating to that.

Pathway 1 looked at Room on the Broom and made

some lovely hats, Pathway 2 looked at The

Smartest Giant in town and made a beautiful display in the corridor, and Pathway 3 looked at The Snail and The Whale. We had some fantastic costumes from both staff and students!

### Log Cabin

This week a new outdoor classroom has been built in the garden, providing a space for learning whatever the weather, and we look forward to making full use of this.

## Cadbury World

Throughout last term, Pathway 2 learnt all about chocolate and went to Cadbury World where the students got to see where chocolate came from and how it is made. They were very pleased to go home with some samples!

## Our new trampoline

The students came back after Christmas to find a new trampoline had been installed in the garden. This has proved really popular with students from all pathways.

## Circus Skills

This year we've been having Circus Mash in every week teaching us all some circus skills. This has proved to be a lot of fun for the students, learning skills like how to spin plates and juggle.

## 1D cinema trip

1D went to the cinema to watch a film. They all enjoyed themselves and were a credit to Fox Hollies!

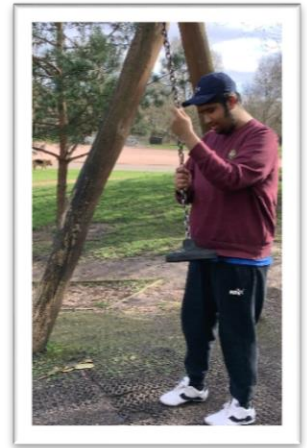

## Thrive

Some of our Pathway 3 students have been improving their gardening skills by going to Thrive every Thursday.

## 4M park trips

Pathway 4 loved their trips to the park last term.

## Upcoming events....

Fox Hollies has been given the unique opportunity to put on an Arts exhibition at the MAC (Midland Arts Centre) in the theatre area on Monday 27th, Tuesday 28th and Wednesday 29th June as part of a project supported by the Arts and Culture section of the Commonwealth Games learning programme.

The exhibition centres around the theme of building 'Common ground' and the aim of the project is to showcase arts created by our students in an inclusive format, celebrating their individuality and connecting with our local community.

More information to follow.....

## And to our families celebrating Eid...
