

Stay at home

Coronavirus is a virus that is making people feel poorly.

To stop more people feeling poorly The Government has

said for people to stay at home.

I will not go to school. I will stay at home.

I can complete activities my school has sent for me to

do a home.

I can go onto the school website and complete weekly

challenges.

I can play games and go in the garden and listen to music.

It will be different being at home but I will be ok.

My teachers will call my house once a week to see

how I am doing.

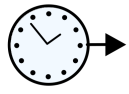

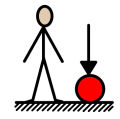

School will tell my family when I can go back and see

my friends.

My teachers want me to stay at home and be safe.

 I  will  stay at  home  and  happy.
